

## RTITB Master Driver for CPC Course Combination Matrix

The course combination matrix illustrates the wide range of “course options” available to employers and drivers. The flexibility provided by the course options will allow both driver and organisational need to be met whilst maximising training opportunities.

Training can be delivered in the following ways;

- *One 35 hour (5 Day) block*
- *7 hour (1 Day) blocks*
- *Multiples of 7 hour blocks i.e. 14 hours (2 Days) 21 hours (3 days)*
- *3.5 hours sessions, provided that the second 3.5 hour session commences within 24 hours of the first 3.5hr session finishing (thus enabling training to be better suited to operational needs and allowing evening training to be undertaken etc)*
